

# Ladybug Match!

**To Assemble:** Copy onto cardstock and laminate. Cut out lady bug cards and then cut each ladybug card in half.

**To Play:** Mix up cards and have students match each ladybug letter half to its corresponding picture half. To accommodate those students who struggle with this activity, you may want to only put 4-8 card pairs into a Ziploc bag and mix up.

**To Manage:** So that students can self check their ladybug halves, I put matching stickers on the two halves of a ladybug. When students match all their ladybugs, they turn them over and see if each ladybug has two matching stickers on the back.
